**STYLING GUIDE**

# *The Barn on The Bay* INCLUSIVE STYLING

Have you ever booked a holiday and been bombarded with endless add-ons? It's a frustrating experience, to say the least. Unfortunately, the wedding industry can be the same way – but not anymore. Our styling service is leading the charge in simplifying the process.

Our core styling range is designed to give you everything you need to make your special day perfect. We don't individually price each item to make it seem like we're offering a cheap service. Instead, we celebrate the value that our talented team and vast styling collection bring to your event. From table runners to LED candles to napkins, we include all the essentials for your celebration.

Of course, we offer options to upgrade certain elements, but it's not necessary unless you're looking for something very specific. For example, if you'd like real candles, luxury linen or bespoke glassware, we've got you covered with upgrade options.

Otherwise, everything you need is included in our core styling package.

Our styling services are anchored by our team of seasoned wedding professionals.

They specialise in customising a bespoke design based on your unique Wedding Design Brief, so you know exactly what to anticipate.

Additionally, they'll handle all the setup and takedown logistics and ensure a seamless transition from day to night, making certain everything runs smoothly.

## Why Capsule Styling ?

The amount of waste generated by weddings over the years is staggering. We decided to tackle this issue head-on by creating our own styling store that allows items to be reused again and again.

When something goes out of style we replace that item rather than a whole collection.

Our core collections are designed to provide couples with a solid foundation to work with. All you need to do is select a base style you love, then work with one of our experienced stylists to personalise it.

Whether it's adding disco balls to our Silver Linings collection or incorporating pebble candles to embrace our coastal location, the possibilities are endless. Let's create a wedding that's both stylish and sustainable!

CONSTANTLY EVOLVING,

We carefully curate each collection to ensure that the pieces complement each other perfectly. And, if anything gets damaged, we'll replace it with something similar but not necessarily identical to keep things fresh and exciting.

## STAYING INSPIRED

Wondering where our inspiration comes from and why our styling is unique? It all starts at home.

We carefully monitor home styling trends and incorporate them into our wedding designs. We also take into account the seasons, offering simpler springtime pieces, lighter summer items, and moodier styles that are perfect for autumn and winter.

These collections then evolved to cater to larger weddings in the Cowshed Wedding Barn, where the focus was on customisation. Each table is designed to be different, featuring unique and bespoke items to bring the overall design together. Our collections are tailored to stand out, setting your wedding apart from the rest.

## SOME OF THE OTHER LITTLE, BUT ESSENTIAL, BITS

### Set Up and Take Down

We don't want you worrying about a thing on your wedding day so our packages include set up and take down. Any little bits that you want to add can be dropped off and our team will set it up for you and pack everything back up for collection later.

### Supplier Co-ordination

---

Florists, cake makers, musicians, fireworks and other vendors who need access to site, pass us their details and we'll liaise with them in regards timings, equipment, evening food, delivery and collection. We'll even chase them up for their public liability certificates to make sure you're covered in this respect.

### Evening Vendor Liaison

---

If you want to bring in your own evening caterer we'll make sure they know what facilities are available and speak with them about where they will be setting up. If you want to bring in an outside caterer

## Room Flips

---

After your meal your guests will be invited to the bar area while our team clear down your tables and set them up for the evening with a fresh look including lanterns for a bit of night time twinkle.

By clearing tables it allows a better guest experience as they will then start to move around the venue in the evening and talk to each other rather than remaining at a designated table.

## On The Day Coordination

---

On your wedding day there will be at least one member of the co-ordination team that you've gotten to know present at all times.

We have a pretty amazing 'on the day' document on hand so at all times everyone is clear on what's happening when.
